

ASEC Alert!

As you are likely aware, SpEd Forms made some changes in the Evaluation Report. Some of you are experiencing difficulty with this change. Please carefully read the instructions below and follow the directions for whatever browser you use.

You will find updated browser compatibility information following. Please note revised support for Mac OS browsers, information about spellchecking in ER forms and browser specific setup instructions.

This document is available online at:

http://docs.google.com/View?id=dphrmsd_155dpzc5ndt

Browser guidelines -

Please use the following to determine which Internet browser to use with SpEd Forms.

1. Microsoft Windows (PC):

Internet Explorer is recommended.

Opera 10 is supported.

Safari 4 is supported.

Firefox is supported but not recommended due to ongoing instability.

2. Mac OS:

Opera 10 is recommended for Jaguar, Panther and Tiger.

Safari 4 is recommended for Leopard.

Firefox is supported but not recommended due to ongoing instability.

Browser specific **spellchecking in ER Forms** -

Please use the following spellchecker with SpEd Forms ER.

1. Internet Explorer (Windows)

Designmode: Use the spell checker in the word processing toolbar.

2. Opera (Windows/Mac OS)

Designmode: Use the spell checker in the word processing toolbar.

3. Safari (Windows/Mac OS)

Use Safari's built-in spell check.

4. Firefox (Windows/Mac OS)

Designmode: Use the spell checker in the word processing toolbar.

More info: The spell checker button in the word processing toolbar is the spell check you would use if you were spell checking a Word document NOT the spell checker button in the navigation bar of SpEd Forms to the left of the "Save" button (abc).
