

Restrictive Procedures Plan ISD# 595 East Grand Forks

Schools that intend to use restrictive procedures are required to maintain and make publicly accessible in an electronic format on a school or district Web site or make a paper copy available upon request describing a restrictive procedures plan for children with disabilities.

Restrictive procedures means the use of physical holding or seclusion in an emergency. Restrictive procedures must not be used to punish or otherwise discipline a child.

An emergency means a situation where immediate intervention is needed to protect a child or other individual from physical injury. Emergency does not mean circumstances such as: a child who does not respond to a task or request and instead places his or her head on a desk or hides under a desk or table; a child who does not respond to a staff person's request unless failing to respond would result in physical injury to the child or other individual; or an emergency incident has already occurred and no threat of physical injury currently exists.

Restrictive procedures may be used only in response to behavior that constitutes an emergency, even if written into a child's IEP or BIP

I. East Grand Forks School intends to use the following restrictive procedures:

A. Physical holding:

1. Physical holding means physical intervention intended to hold a child immobile or limit a child's movement, where body contact is the only source of physical restraint, and where immobilization is used to effectively gain control of a child in order to protect a child or other individual from physical injury.
2. The term physical holding does not mean physical contact that:
 - a) Helps a child respond or complete a task;
 - b) Assists a child without restricting the child's movement;
 - c) Is needed to administer an authorized health-related service or procedure; or
 - d) Is needed to physically escort a child when the child does not resist or the child's resistance is minimal.
3. East Grand Forks School intends to use the following types of physical holding:
 - a) CPI Children's Control Position
 - b) CPI Team Control Position
 - c) CPI Transport Position
 - d) CPI Interim Control Position

B. Seclusion

1. Seclusion means confining a child alone in a room from which egress is barred.
2. Egress may be barred by an adult locking or closing the door in the room or preventing the child from leaving the room.
3. Removing a child from an activity to a location where the child cannot participate in or observe the activity is not seclusion.
4. East Grand Forks School intends to use the following rooms as rooms for seclusion:
 - a) none

II. East Grand Forks School will implement a range of positive behavior strategies and provide links to mental health services.

A. Positive behavioral interventions and supports means interventions and strategies to improve the school environment and teach children the skills to behave appropriately.

B. East Grand Forks School implements the following positive behavior strategies:

1. Over the course of time we have focused on character education in some form or another. From Project Charlie to Second Step to the 7 Traits of Good Character we have focused our advisor time on trying to build good character in our students. We have also held character retreats in each of the last 7 years or so using local leaders, statewide presenters or nationally recognized programs. (Rachel's Challenge) We are now in the second year of the statewide PBIS training. Along with our PBIS - school-wide expectations, we also provide SST team intervention suggestions, In-class education by school counselors, behavior groups conducted by school counselor, responsive classroom techniques, situational modeling and behavior charting/planning.
